# PISH & POSH STYLE GUILD

Photography Fashion::Style Boards:: Inspiration:: Fashionable Finds

## Our Story

 PISH&POSH STYLE GUILD · FRIDAY, JANUARY 26, 2018

Well Hello!! I am Taci !!

I play dress up for a living! I offer custom photography styling, find stylish pieces and share them with Y O U, frantically pin great stuff on Pinterest and {l.o.v.e} creating inspiration boards on Polyvore..

Generally, photographers contact me to create an atmosphere or style for their clients before the day of their session.

Photographer provides me (Taci) client information and I contact them and then the magic begins as we scour the net to find all kinds of clothing, prop, location, posing, makeup/hair options.

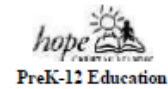

My personal style is a little of everything but that's my own style based on my own look, my appearance and my personality. I style our clients based on THEIR own looks and their unique personality. This results in photographs that capture a persons N a t u r a l Essence. Ill-fitting clothing, colors that clash, etc are distracting and take so much away from the gorgeousness of the people in the portrait...Moreover, if a client can get real with me, tell me if there is something they are uncomfortable with, etc, I can help them round that out and move forward with a successful photo session 😊 less editing, Photographers!) And lets face it, it can be a little strange being photographed at first. Helping people dress up into their best selves will set the scene and produce beautiful, memorable and

I R R E S I S T A B L E images.

### Benefits of chiropractic

Chiropractic works by performing specific adjustments to correct misalignments detected by a chiropractor and restore proper function to the nervous system, helping your body to heal naturally.

There are many wonderful benefits to Chiropractic care including: decreased back and joint pain, improved range of motion, improved sleep, decreased headaches and improved wellbeing. We like to discuss the benefits of chiropractic with each patient to see how we can meet their goals and get them the most benefits possible. Best of all, its natural and non-invasive.
